

Parent Guide

How can I use this with my children?

Get messy with this art activity. Have fun finger painting the spots on to Geo.

How does this help my children's learning?

This resource is perfect for developing fine motor skills and control. Why not print off the images in different sizes to encourage your child to use both large and small movements?

Ideas for further learning:

Use this as a fun maths activity to count how many spots your child can fit onto the image of Geo the Giraffe. Encourage them to expand further by asking if they can work out 10 more and less.

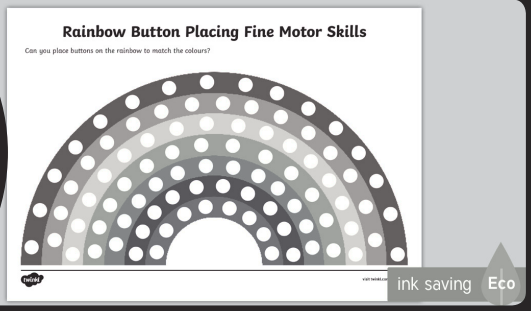

Finger Painting: Geo the Giraffe

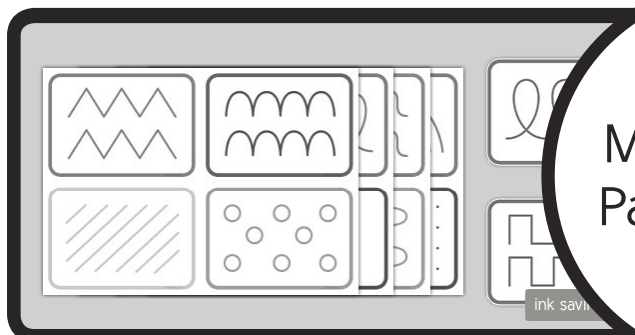

If you enjoyed this resource, why not try...
